WORK EXPERIENCE

Sigvitas & Company — Mysore, Karnataka

Software Engineer | Nov 2024 – Present

- Developed and maintained full-stack MERN applications for business workflows and data management.
- Built reusable React components, REST APIs, and interactive dashboards.
- Designed MongoDB schemas and backend services using Node.js and Express.js.
- Implemented authentication, CRUD operations, and responsive user interfaces.
- Deployed and maintained applications using Hostinger, Render, and Vercel.

PROJECTS

Daily Routine & Productivity Application | MERN Stack

Live: daily-routine-app-zeta.vercel.app

- Developed a full-stack productivity application using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication with refresh tokens, protected routes, and user profile management.
- Built modules for Tasks, Habits, Goals, Calendar, Notes, and Daily Routines with a responsive UI.
- Designed REST APIs and MongoDB schemas for application data management.

Roster Data Management System | MERN Stack

Live: roster1.sigvitas.com

- Built a data management application using React.js, Node.js, and MongoDB.
- Implemented authentication, user management, and CRUD operations through REST APIs.
- Deployed the application using Hostinger Git integration.

US Patent Blog Application | MERN Stack

Live: uspatentq.com

- Developed a full-stack blogging platform using React.js, Node.js, Express.js, and MongoDB.
- Implemented JWT authentication and an admin dashboard for managing posts, users, and comments.
- Built search, filtering, category management, and responsive user interfaces.

EDUCATION

Bachelor of Science (B.Sc.)

Yuvaraja's College, University of Mysore

CGPA: 7.67
